THE FORTY-NINERS.

The papers of the Coast are eulogizing the '49ers who came West when gold was discovered, and appear to believe that they merely came to develop a new country for future posterity.

While there were a lot of large-hearted noble men among the pioneers, they were out here chiefly for the "stuff," and that's what brought 'em all.

While tender-hearted writers are disposed to throw the mantle of poetry, and romance around their deeds, it is pretty generally known that in the early 50's you had to look out for No. 1, keep your hand on your gun during the day and sleep with it under your pillow, and the man who was slow at fingering the trigger, couldn't scare anybody.

Communities were mostly made up of rough, lawless men, and lynchings by vigilance committees were frequent occurrences.

Of course you may say that this generation owes the '49ers a great deal, well, perhaps we do, but most of them were amply repaid for all the hardships they endured, which they chose to endure, because they thought there was money in it for them, and that is the reason, and the only reason they were willing to carry their lives in their hands and suffer privation and misery. They were all in pursuit of the "golden fleece."

Nevada State is getting excited over the proposed annexation to Utah and we do not blame the citizens for taking a firm stand, says the Grass Valley Tidings. Nevada State has many friends and we do not believe she will ever have to be joined to Utah. Speaking of this matter the Los Angeles Herald says: The proposition will find but few advocates in the Pacific States, as the aristocratic New York organ of the goldbugs avows its advocacy of the scheme to be prompted by a desire to get rid of Senators Stewart and Jones. That is why we oppose the proposition.

Sensors Stewart and Jones are two good men and firm friends of California, having been pioneers of this State before "Washoe" was ever thought of. They can be relied upon to vote for any measure that may be good for California; and as the interests of the two States have never been in conflict, we say keep them where they are.

We suggest the sending of Mrs. Professor Sullivan to Florida with that Indian club, through the instrumentality of which she knocked out John L. night before last. If she will go down there and do the same thing for both Corbett and Mitchell she will confer a great favor upon the decent people of this country, and by popular subscription we will guarantee that she shall have a champion belt made for her, studded all over with precious gems. She did the best job on big John that was ever performed, and, desiring to be quick to recognize talent in any form, we congratulate her and urge her to go on and see if she cannot do the world twice as much of a favor by knocking out both Charlie and Jim. In explaining the little affair with John, she admitted that she struck him a little harder than she intended. We beseech her that if she gets a chance at Jim and Charlie not to limit her intentions at all, but to give them the full benefit of the club.—Salt Lake Tribune.

A large portion of the male population of Sitka have wives they have purchased. This is contrary to law. Marshal Porter of the Alaska District has just instructed his several deputies throughout the Territory to at once arrest every white man violating the law. As a result of which official order nearly every man on board the United States steamer Pinta is in jail at Sitka. Hundreds of other arrests are expected.

The number of foot-pads male and female is increasing all over the country. It is a case of rob or starve.

Yesterday started in to be a fine day, but in the afternoon it clouded up, and a storm is looked for.
